## OBJECTIVE

Enthusiastic Frontend Developer & Software Tester with hands-on experience in ReactJS, UI/UX design, and automated testing. Skilled in building responsive web applications and ensuring software quality through API/UI testing. Seeking opportunities to contribute to product quality and user experience in dynamic software projects.

## WORK EXPERIENCE

### Internship at FPT software

HCM 13/05/2024 -

15/12/2024

September 2024 -  
January 2025

### Tester

Software Intern – FPT Software, HCMC Tested mobile applications using Selenium & Postman, detecting and reporting critical bugs before release. Developed frontend modules with ReactJS + Ant Design, improving UI performance and user experience. Collaborated in Agile team, participated in sprint planning, and supported integration testing.

## PROJECTS

### Cosmo-Booking Spa System

2024 - 2024

<https://cosmotopia.vercel.app/>

A cosmetics website integrated with AI provides makeup routine suggestions and recommends products suitable for your skin type.

### Self-driving car rental management system - mobile app

2025 - presents

<https://github.com/hhq160325/CRA-Mobile.git>

The project aims to develop a self-drive car rental management system that connects car owners and customers on a unified platform, automating booking and payment processes, providing transparent rental history, and integrating advanced features such as vehicle usage tracking and maintenance scheduling.

## EDUCATION

2020 - present

software engineering

FPT University
